be. real ABOUT

A healthy body and a confident mind make all the difference when facing difficult situations, not only in life but in business too. As a sponsor of the be. real Retreat 2018, you will provide 150 attendees with the toolkit for change — real, achievable change that each participant will take from the event to apply into their life and business.

The conference is designed to lead participants through 4 self-discovery workshops, each session adding to the next, over the course of the day. By the end, participants will have discovered new awareness and methods to empower their everyday life.

The be. real Retreat 2018, founded by award-winning business owner Tryna Gower and presented by a line-up of master teachers, offers a logical, everyday approach to living a happy, stress-free life.

We look forward to discussing the conference with you and invite you to consider taking a sponsorship opportunity.
